

Test Session Log

Some tests you can do (this was shown in our demo).

Output of these test can be found in the final report in Sample Run Section

=====PRESENTATION=====

```
OPEN time; loc <- select (location == "HRBB 113") time;  
SHOW loc;
```

```
cc <- loc + (select (location == "HRBB 131") time);  
SHOW cc;
```

```
CLOSE time;
```

```
OPEN course; OPEN enrollment; csen <- ((select (subj == "CSCE") course) & (select (rem  
> 0) enrollment));  
SHOW csen;
```

```
CREATE TABLE temp (crn INTEGER, subj VARCHAR(4), crse INTEGER, sec INTEGER, cap  
INTEGER, act INTEGER, rem INTEGER) PRIMARY KEY (crn);  
INSERT INTO temp VALUES FROM RELATION csen;  
SHOW temp;
```

```
UPDATE temp SET subj = "what" WHERE (sec > 507);  
SHOW temp;
```

```
WRITE temp;
```

```
EXIT;
```
